

Management

Make business smart

Make business \$mart

Our goal

to provide our students with the innovative view of a contemporary manager able to advance and use the human resource in the context of severe competition.

Let's make business smart!

European Business School creates conditions allowing each person to achieve success and incredible results.

Become a leader of the new generation!

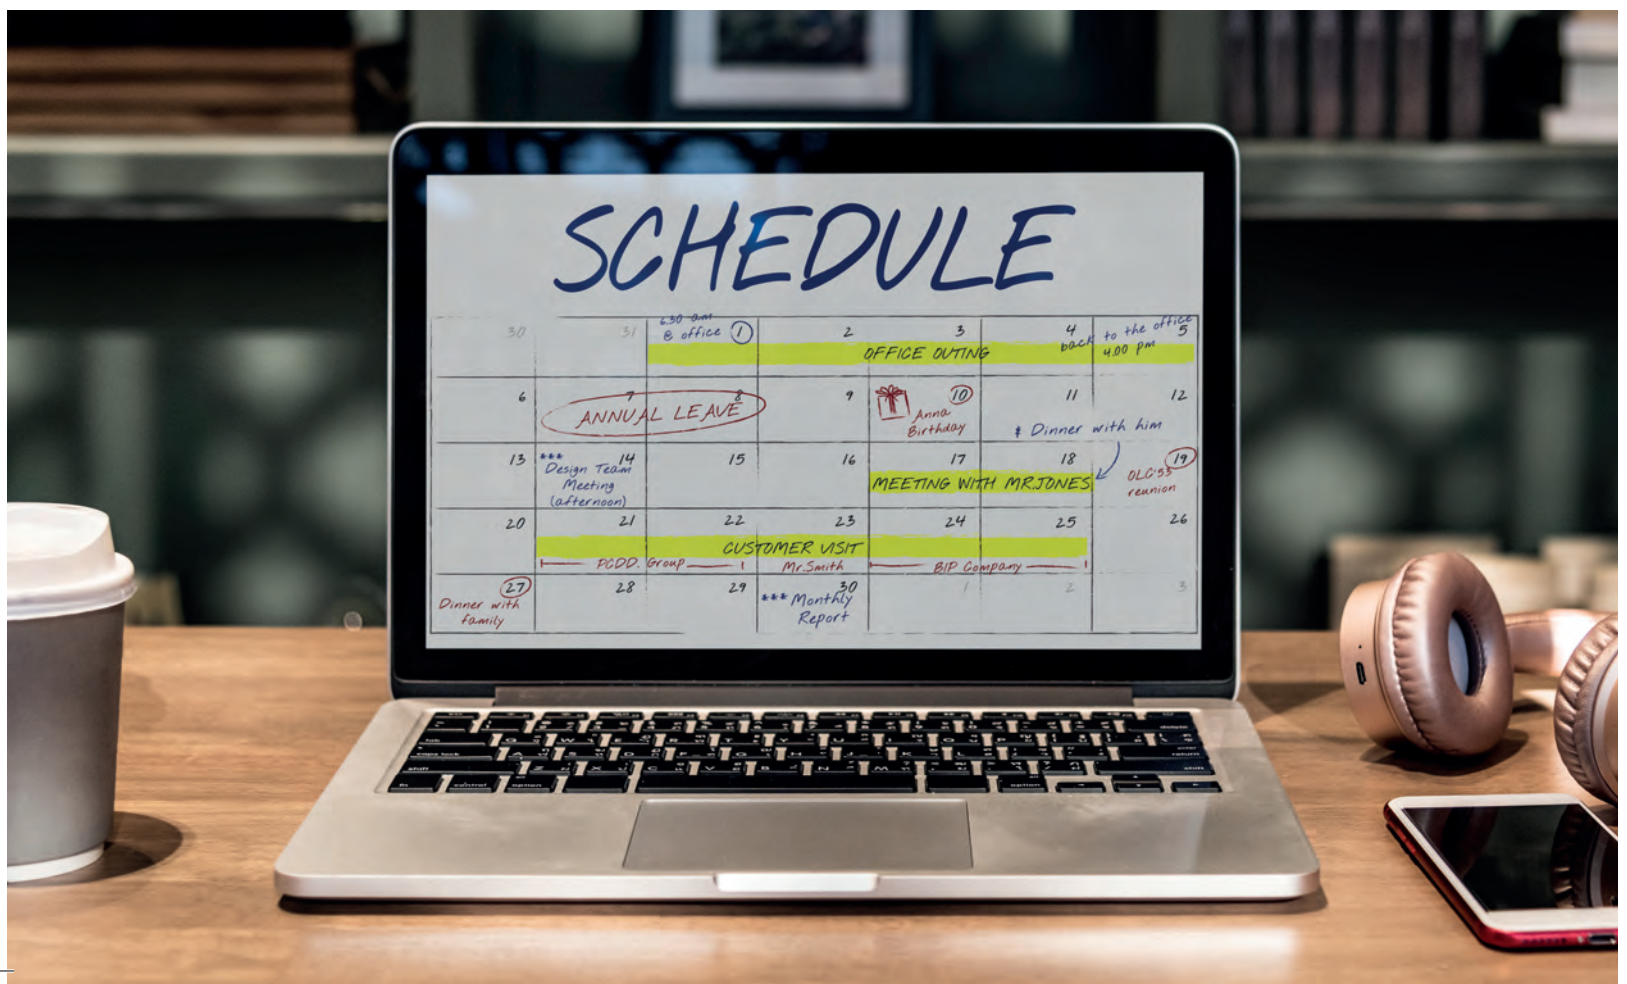

Reasons to choose European Business School

Almost all higher education institutions offer the Management specialty. You face quite a difficult choice: what establishment to choose? We can answer this question without doubt: choose European Business School of International European University because:

- only we pay great attention to the development of soft skills (individual, communicative and managerial skills) from the first day of study. Acquisition of these skills is crucial to understand how people interact with each other, rapidly adapt to new conditions and solve uncommon tasks. We prepare our students for successful employment since the beginning of training;
- only we allow students to extensively cooperate with employers starting from the first course, attend workshops by well-known Ukrainian entrepreneurs where they get acquainted with enterprise operations, obtain useful tips regarding the establishment and management of a company in

the current environment;

- only our students gain experience, during their first year, in advancing human skills, presenting themselves and expressing their opinions, taking part in broadcasts on international online TV due to our partners. We consider each student as a personality and develop their creative potential;
- only our management programs will allow students to improve their proficiency in English and reach a higher level by communicating with foreign lecturers and participating in the international student association of the university – Speaking Club;
- only we invite lecturers among foreign speakers and leading Ukrainian practitioners who ensure the symbiosis of theoretical knowledge, international experience and practical implementation required to efficiently control a modern enterprise.

About the educational program

Management

BACHELOR

The Management educational program (first (Bachelor) level) of the 073 Management specialty is aimed at training professionals able to efficiently work in any economic sector, at enterprises and organizations of various types and range of activity.
