

Eco-management

Кафедра менеджменту та економіки

<i>Семестр</i>	8
<i>Освітній ступінь</i>	бакалавр
<i>Кількість кредитів ECTS</i>	4
<i>Форма контролю</i>	Залік
<i>Аудиторні години</i>	56 (28 год. лекційні, 28 год. практичні)

The purpose of teaching the subject "Eco-management" is to give students the knowledge and skills to become thoughtful stewards of the environment, to ensure that human and nonhuman species can coexist across landscapes. Stewardship ensures that ecosystems are resilient and thereby have enduring capacity to be productive.

The main tasks of studying the discipline "Eco-management" are:

- understanding the necessity, benefits and methods of eco-management of the enterprise;
- provides an in-depth understanding of modern system theoretical and methodological concepts of eco-management;
- forms the system of knowledge and practical skills in applying the principles, methods and tools of management in the field of eco-protection.
